Summary

Aspiring Software Engineer | Web Development Enthusiast | Lifelong Learner | Quality-Focused Innovator I'm an Aspiring Software Engineer with a solid foundation in Computer Science and Engineering. My journey is centered around continuous learning and creating impactful software solutions that make a difference. With a deep curiosity for technology, I'm always exploring new tools, frameworks, and techniques to stay at the cutting edge of the development world. Whether it's optimizing complex algorithms or building intuitive web applications, I tackle every challenge with a problem-solving mindset and a drive for excellence. I'm committed to delivering high-quality, efficient code and constantly refining my skills to ensure that every project I work on meets the highest standards. My focus on quality isn't just about the code—it's about crafting seamless, user-centric experiences that truly stand out

Experience

- May 2025 - Jul 2025

Full Stack Developer

Blackbucks

I contributed to front-end and back-end development initiatives as a Full Stack Developer Intern at Blackbucks (Internship, 2025-2025). I applied my coding and problem-solving skills to assist in building and refining software features. My responsibilities included supporting the development lifecycle and collaborating with the engineering team to achieve project objectives during my tenure.
- May 2024 - Jul 2024

Artificial Intelligence and Machine Learning Intern

IT Solutions

As an Artificial Intelligence and Machine Learning Intern at IT Solutions (Internship, 2024), I applied my analytical and problem-solving skills to contribute to AI/ML projects. My responsibilities included data preprocessing, model development, and performance evaluation, supporting the team in achieving key project milestones.

Education

- 2022 - 2026

Potti Sriramulu Chalavadi Mallikarjuna Rao College Of Engineering And Technology (PSCMRCET), Vijayawada, Andhra Pradesh

Graduation • B.Tech/BE (Bachelor Of Technology/Bachelor Of Engineering) • Computer Science And Engineering

Percentage - 75% • CGPA - 8.23

I am Graduate in B.Tech Computer Science and Engineering at Potti Sriramulu Chalavadi Mallikarjuna Rao College Of Engineering And Technology (PSCMRCET), Vijayawada, Andhra Pradesh, from 2022 to 2026. My studies provide a strong foundation in core computer science principles and engineering practices.

Certification

Data Structure and Algorithms using Java

Python Programming

Skills

- Communication
- Software Development
- Backend Development
- Programming Skills

Projects

Car Price Prediction

📅 May 2024 – Jul 2024

Performed extensive feature engineering, regression, and ensemble modeling, improving efficiency by 25% and achieving 95% accuracy. Applied hyperparameter tuning and rigorous model evaluation, boosting predictive performance by 15% and ensuring robust results.

comprehensive e-commerce platform

📅 May 2025 – Jul 2025

Built a full-fledged e-commerce platform with secure user authentication, dynamic product listings, cart management, order processing, and an admin dashboard. Developed the application using RESTful APIs and MVC architecture, ensuring scalability, clean code structure, and maintainability.

Achievements

Leetcode

Successfully solved over 100 competitive programming problems on LeetCode, demonstrating advanced proficiency in data structures, algorithms, and problem-solving for software engineering roles.

Hackerank

Achieved a top percentile ranking on HackerRank, demonstrating strong proficiency in competitive programming and problem-solving skills in cpp.

Responsibility

Make A Difference

Volunteer

As a Volunteer at Make A Difference, I actively contributed to Educating Students of Urban Areas. My role involved actively participating in Educating activities.
